

TAFNET TOUCH Adoptive Families Network

Putting hearts in touch

About US

TOUCH Adoption Services (TAS) is one of the services of TOUCH Family Services, an affiliate of TOUCH Community Services, a non-profit, voluntary welfare organisation, established in 1992. TOUCH Adoption Services, was started on 1 July 2001 when it became the first accredited agency in Singapore to conduct home study for inter-country adoption.

Our Mission

At TOUCH Adoption Services, we believe that every child is a precious gift. We seek to facilitate the fulfillment of a dream by being a bridge bringing together every child deserving a permanent loving family and every parent desiring to love and care for a child through adoption.

History of TAFNET

TAFNET was first started in January 2006 with the purpose of providing support to families who are interested in, or in the process of adopting or who have already adopted children. Since then, TAFNET

membership has grown to a total of 148 families of all nationalities with children adopted from various countries! Through an online forum, discussion groups & social meetings, TAFNET provides a place for adoptive parents to meet & connect with other adoptive families, share the joys of parenting and talk about adoption-related issues.

In February 2009, TAFNET launched the formation of small home groups where members can meet more regularly in a home setting to build lasting friendships and belong to a smaller support group with more close-knit ties.

To join TAFNET and gain access to the online forum, each family only needs to pay a **life-time membership fee of \$100 (inclusive of 7% GST)**. Please complete and send the attached registration form to sign up *now*, and get connected with other families and be part of the network!

"We joined TAFNET when our daughter was just 8 months old and ever since then, we have obtained tremendous emotional support from the facilitators & fellow members. Those with older children have given us a very good insight of where our relationship with our daughter may head as well as solutions to tackle possible problems. We definitely have benefited from being a part of TAFNET and would highly recommend it to prospective and existing adoptive families."

- TAFNET member
